

## At Hard Labor

If you were at work in the ditch and your employer should ask you to work 365 days in the year, including nights and Sundays, you would go on a strike right away, wouldn't you?

Can't be done, you say? Yes it can. You can get that kind of service. That's what money at interest will do for you. Interest never sleeps. Why not save a little money by opening an account at our bank and thus put money to work for you instead of you working for money all your life? Think it over.

"Yes," replied Senator Sorghum. "We want to keep American citizens interested in their government. By being slow we manage to create a little suspense."—Chicago Record Herald.
